Go-to-market steps

Experiments

#	HYPOTHESIS	TEST	SUCCESS
1	The tour gets more attention when sent right after admission	Send to two admit cohorts at different times	Higher start rate in one cohort
2	Questions from the tour reveal gaps in official materials	Review the top 20 questions	At least 5 content gaps found
3	Students who finish a tour ask fewer basic questions by email	Compare inquiry types	Fewer repeat questions

Risks

- Approval and privacy rules at a university take time.
- A competing vendor contract may already exist.
- Content needs upkeep each term.
