Aditi Kela

Associate Product Manager

Seattle, WA | 206-518-0347 | aditikela0@gmail.com | linkedin.com/in/kelaaditi | Portfolio

SUMMARY

Associate product manager with 3+ years of experience across banking risk and compliance and manufacturing projects. Turns user research and stakeholder needs into requirements and specifications, ranks competing requests with RICE and MoSCoW, and has built applications for travel planning, clinic billing and IT support requests. Works with Engineering and QA on requirements and testing, and prepares dashboards for C-suite reviews.

PROFESSIONAL EXPERIENCE

Grifols Biologicals **Jun 2026 - Sep 2026**

Project Management Intern, Operational Excellence *Los Angeles, CA*

- Worked with Engineering and QA to turn operational needs into functional requirements and design specifications, linked requirements to testing, and standardized project documentation where relevant.
- Created a prioritization dashboard using 5 weighted scoring criteria so C-suite reviews could compare project priorities, progress and risks.
- Automated an ongoing-project Excel tracker covering 8 production areas to consolidate weekly reporting and flag delays and dependencies, reducing weekly reporting preparation from roughly 1 day to 1 hour, an estimated 87% time reduction.
- Coordinated Quality, Validation, Engineering and Facilities on shutdown milestones, raising at-risk work for stakeholder review.
- Automated meeting minutes using Microsoft Copilot, Excel and Word, replacing manual notes with transcripts, action items and owners for review before sharing.

RBL Bank **Jul 2022 - Jun 2025**

Program Manager, Risk and Compliance *Mumbai, India*

- Automated risk and impact assessment workflows with generative AI, keeping regulatory guideline checks and approval controls in place and reducing turnaround from at least 3 days to 3 hours, an 85% time reduction.
- Moved the guideline rule set from Excel into an automated workflow that flags applicable RBI, NPCI and international guidelines, reducing the error rate by 20%.
- Built 3 Power BI dashboards for C-suite risk reporting and validated the underlying risk data in SQL, and automated 6 recurring reports, cutting each cycle from 2 days to 4 hours, a 75% time reduction.
- Ranked engineering requests using RICE and MoSCoW and coordinated change control through production release.
- Supported the bank's mobile app version 2 launch with risk assessments, policy documentation and compliance dashboards.

SELECTED PROJECTS

TravelScout | Travel Planning Chatbot | *In development*

- Conducted user research for a chatbot covering personalized itineraries, friend connections and group polls. Planned next: recommendations based on travel patterns and voice interaction.

BabySteps | AI Parenting Application | Figma, Claude API, speech-to-text

- Designed the app in Figma and developed it with the Claude API and speech-to-text; presented at Northeastern Expo 2026. Planned next: chatbot assistant improvements.

Dental Clinic | Patient Records and Billing | Swift iOS | *Live*

- Built an iOS app that stores patient records, tracks returning patients, and manages billing and invoices for the clinic.

HelpDesk | IT Support Request Platform | *Live prototype*

- Built a prototype where users submit IT support requests that are assigned to the responsible team, demonstrated with sample data.

HACKATHON

NuCampus360 | Emerald Forge Hackathon, Northeastern University | Mar 27, 2026

- Presented an AI campus guide with chatbot functionality.

CORE SKILLS

Product: User research, requirements analysis, feature prioritization (RICE, MoSCoW), stakeholder collaboration

Tools: Figma, SQL, Power BI, Jira, Excel, Microsoft Copilot, Claude API

EDUCATION

M.S., Information Systems | Northeastern University, Seattle, WA | GPA 3.92 **Expected May 2027**

B.Tech, Computer Science | MKSSS Cummins College of Engineering for Women, India **2022**
